Understanding Billing & Helpful Tips for Success

Ensuring Smooth Operations as Your Business Takes Off

1. Timely Deliveries:

- Aim to complete deliveries promptly once a booking is taken by your rider. Efficient deliveries help maintain optimal server usage, keeping costs manageable and ensuring uninterrupted service.

2. Managing Rider Count:

- For smooth operations, please note that adding more than 10 riders may incur an additional fee per extra rider. This fee reflects third-party service costs and helps us maintain quality service as your team grows.

3. Tier Upgrades for Growing Business:

- As your business grows and the number of trades increases, your tier will be upgraded to the next level. For example, reaching 50 bookings in 3 days will upgrade your tier, providing more capacity and reflecting new pricing in your next bill.

4. Annual Billing Adjustments:

- To continue offering excellent service, we may adjust billing annually by up to 20% or more, considering factors like inflation. Any changes will be communicated on our official platform in advance, ensuring transparency and preparation time.
